You can custom order a rustic photo plaque from your personal images. Perhaps this is an antique photograph of your great grandparents, a recent family vacation snapshot, a photo of the house you grew up in, or your favorite fishing spot in the Adirondacks. This can be a recent digital photo, a older film negative (or print) or an antique photo* which would be scanned, restored and resized using Photoshop. Images must be able to be cropped to fit an oval shape... so it is important that I see a copy of the image before hand to know if it is suitable to be placed on a plaque. Send a small jpeg version via email or in person so I can determine if it can be used. The best image is one where the main subject is centered in the photograph. Each plaque is covered in up to five layers of shellac. I can also add up to 10 words of a personal inscription to the back of the plaque.

How to Order: First contact me via email or telephone to let me know some details of what you are looking for and to show me the image you are thinking of. Then fill out the form below and send it back to me along with the best quality version of the image you have. Then I will begin work on your own custom Plaque !
